👤 CAREER OBJECTIVE

I am an inquisitive and sincere individual, always eager to expand my skills and knowledge. Actively seeking job opportunities that will allow me to grow both professionally and personally. As a driven computer science engineer, I am dedicated to utilizing my technical expertise to drive innovation and make meaningful contributions to impactful projects.

🎓 EDUCATION

**Bachelor of Engineering in Computer Science and Engineering &
B.E. Minor with Specialisation in Sensor Technologies and IoT (2023 - 25)**

2021 – 2025

Erode

Bannari Amman Institute of Technology

CGPA : 7.48

💼 INTERNSHIP

• PSG HOSPITAL, COIMBATORE

Aug-2025 - Present

Coimbatore

Working as a Frontend Developer Intern, contributing to the development of responsive and user-friendly healthcare web applications. Involved in building UI components, integrating APIs, and supporting real-time hospital management systems.

Technologies & Tools Learned

React.js, Node.js, TypeScript, Bootstrap, Tailwind CSS, REST APIs, Oracle Database integration, Git & GitHub.

Project Worked On

- Room Allotment System
- Patient Reports Management
- CPR Record Management
- Cardiology Management System

• CLOUDVICE, KOCHI

Mar - Jun 2025

Kochi

Worked as an Associate Cloud Consultant Intern, gaining hands-on exposure to cloud-based enterprise solutions and supporting implementation tasks in real-time environments.

Technologies & Tools Learned

Oracle Integration Cloud (OIC), Oracle Visual Builder Cloud Service (VBCS), Oracle Cloud Infrastructure (OCI), Oracle HCM Cloud, Oracle ERP Cloud.

Project Worked On

Developed a Drop/Upload Box automation application using Oracle VBCS development server.

• AJ TECH , COIMBATORE

Jan-Feb 2023

Coimbatore

Skills Learned: IoT and Android Application Development.

Project: Integrated IoT and software application to automate data collection, and monitoring.

• CHETTINAD CEMENT , KARUR, 15 Days

Apr - May 2022

Karur

Worked on a project titled "Sensors and Automations and Manage Software Application."

Automated processes, summarized data into pivot tables, and implemented email automation.

PROJECTS

- **ALTERNATE METHOD FOR OTP BASED AUTHENTICATION IN WEAK SIGNAL AREAS**

Role Played: Team Lead

Tools or techniques used: HTML, CSS, MySQL (Frontend and Backend Developer)

Team-size: 6

Description: A website where users can generate their OTP through scanning QR in Offline mode.

- **An IoT, ML AND BREATH BASED NON-INVASIVE BLOOD GLUCOSE METER**

Role Played: Implementing machine learning algorithms: Linear Regression, Decision Tree, and SVM.

Description: Developed a Machine Learning application to detect the glucose level and set parameter to detect the glucose level, train the dataset, and prioritize the accuracy percentage and projects efficiently.

Implement: Implementing machine learning algorithms: Linear Regression, Decision Tree, and SVM.

Team size : 4

- **ROOM ALLOTMENT SYSTEM**

Tools & Technologies: React.js, Bootstrap, CSS, JavaScript, Node.js, Express.js, MySQL, Git, GitHub

Description: Developed a web-based room allotment system for PSG Hospital that allows hospital staff to allocate rooms for patients through an internal portal, while patients can choose rooms through the room allotment office. The system helps manage room availability, patient details, and booking operations efficiently.

- **PATIENT REPORTS MANAGEMENT & CARDIOLOGY MANAGEMENT SYSTEM**

Tools & Technologies: React.js, Bootstrap, CSS, JavaScript, Node.js, Express.js, MySQL, Git, GitHub

Description:

Patient Reports Management System

Redesigned the patient application into a responsive web platform using TypeScript and Tailwind CSS. Enabled mobile-friendly access for patients to view prescriptions, lab reports, radiology reports, and inpatient admission details.

Cardiology Management System

Converted the cardiology module from an app to a web-based system and integrated it into the patient reports platform. Patients can check their treatment status, manage dosage, and access cardiology reports through a responsive interface.

Technical Skills

- C Programming
- Structured Query Language (SQL)
- Git & Github
- Java Programming
- Web Development

EXTRA-CURRICULAR ACTIVITIES

ENGLISH MODERATOR (ELCC)

BIT-Communication department Moderator for juniors

EVENT CO-ORDINATOR (LUNARA'24)

Bannari Amman Institute of Technology CSE department workshop co-ordinator (2024)

LANGUAGES

- Tamil (R,W,S)
- English (R,W,S)
- Kannada(S)
